

General Safety Rules in a Carpentry / Joinery Workshop

Wear ear protection!
Min. damping 20dB

Wear tight clothes!

**Wear safety shoes
with iron cap!**

No open Flame!

**Helmets are not allowed in
Carpentry workshops!
They limit field of vision and
don't allow the use of ear
protections!**

**Never wear gloves while you
work with machines!
They can be pulled in**

**Don't wear any Jewellery like
Rings, Bracelets, Watches, ...!**

Never run in the Workshop!

**All machines & electrical installations have to be installed by professional Electricians!
In Case of damage or failure interrupt the power supply and request an expert.
Do NOT try to fix it on your own! You may risk your life and the life of others!**
